## DETAILED ACTION

### *Response to Amendment*

1. The affidavit filed on December 4, 2006 under 37 CFR 1.131 is sufficient to overcome the Kumaki reference.

### *Allowable Subject Matter*

2. Claims 1-3 and 5-21 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the step of or means for **"forwarding a handoff update path setup message, for handoffs processed at a network layer, from a second wireless base station to a first wireless base station if said wireless device is handed off from said first wireless base station to said second wireless base station, said handoff update path setup message used to alter routing table entries for selected routers of said subnet, and wherein said first address for said wireless device continues to be utilized if said second base station is within the same subnet"**, when such handoff message is considered within the specific structure recited in the method of claim 1 or the device recited in claim 13. The prior art of record fails to teach or make obvious the step of or means for **"utilizing said routing table entry to forward a packet having said address for said mobile device as a packet header destination address over said interface over which said handoff path setup message is received, and wherein said first address for said wireless device continues to be utilized if said second base station is within the**
